INFECTION PREVENTION & CONTROL (IPAC)
MANAGEMENT OF COVID-19 IN LONG-TERM CARE

Dr. Leis is the Medical Director of Infection Prevention & Control at Sunnybrook Health Sciences Centre and Associate Professor in the Department of Medicine at the University of Toronto. His research is focused on the development of new models of care that reduce the risk of hospital-acquired infection and promote the appropriate use of antibiotics. During the COVID-19 pandemic, Dr. Leis has supported both hospital and long-term care sectors in both prevention and control of COVID-19 transmission.

Objectives:

• Review the transmission of COVID-19 in long-term care homes that experienced outbreaks
• Discuss infection prevention and control practices for protecting residents and healthcare workers in long-term care facilities

Speaker:
Jerome Leis MD, MSC, FRCP
Medical Director
Infection Prevention & Control
Sunnybrook Health Sciences Centre
Associate Professor
