**Almost done with your residency  
training...what's next?**

**Career pathways you may not have pondered.**

**Date: Thursday, October 14th, 2021    Time: 2:30pm EDT**

Dr. Forgie is a professor in the division of pediatric infectious diseases at the University of Alberta and a consultant at the Stollery Children's Hospital. She teaches learners at many levels in a variety of settings and uses innovative and creative approaches. She received a BSc in microbiology and immunology from the University of Toronto, a master of education from the University of Alberta and completed her MD and specialty training at the University of Manitoba. She has been honoured with many teaching awards including the 3M National Teaching Fellowship and her research focuses on innovations in medical education and infection prevention. She has also held many administrative roles, and is currently the President of AMMI Canada and the Chair of the Department of Pediatrics at the University of Alberta.

**Objectives:**

- Extrapolate from my story and create a career path that is authentic and challenging for you
- Discover ways to enhance your knowledge and skills in medical education and leadership
- Define a growth mindset
