

Symptom-Free Pee: LET IT BE

A national initiative to stop inappropriate antibiotic use for asymptomatic bacteriuria in long-term care residents.

STOP

STOP treating asymptomatic bacteriuria; it is not an infection
STOP testing foul-smelling, dark, or cloudy urine

WAIT

WAIT and rehydrate residents who develop changes in mental status, behaviour, or function without typical urinary tract infection symptoms

GO

GO to urinalysis and urine culture if typical signs and symptoms of urinary tract infection are present
