Welcome

The time has come again for us to invite you to THE Canadian annual meeting in infectious diseases and diagnostic microbiology. Mark your calendars! From April 5 – 8, 2022, the AMMI Canada – CACMID Annual Conference will return in a hybrid format: in-person in Vancouver, BC and online via our virtual platform. With picturesque mountain views and cosmopolitan charm, the seaport city of Vancouver offers world-class experiences for all attendees. We hope that you will join us, whether in the comfort of your own home or office or in Vancouver, for another excellent conference.

As usual, the Scientific Planning Committee is working hard to develop a meeting with broad-based appeal. We strive to bring cutting edge topics and engaging high-level speakers to the meeting to ensure excellent scientific discussion. Topics covering COVID-19, Addictions Medicine, Treatment Hot Topics, Aerosol versus Droplet Precautions, and hot topics in diagnostic microbiology, adult and paediatric infectious diseases are being prepared. New to 2022 are our exciting Masterclass sessions on specific niche topics with limited attendee numbers to create a more enriched and personalized learning experience.

AMMI Canada and CACMID have collaborated in hosting a high quality annual meeting for their members since 2005. On behalf of the Central and Scientific Planning Committees, we look forward to hosting you in Vancouver and online for an exceptional educational event with unique opportunities to network and socialize with your colleagues.

Sarah Forgie
President, AMMI Canada
Présidente, AMMI Canada

Bienvenue

Le moment est à nouveau venu de vous inviter à LA rencontre canadienne annuelle sur l’infectiologie et la microbiologie diagnostique. Réservez les dates sur votre calendrier! Du 5 au 8 avril 2022, la conférence annuelle de l’AMMI Canada–CACMID aura de nouveau lieu en format hybride : en personne à Vancouver (C.B.) et en ligne sur notre plateforme virtuelle. Outre son panorama montagneux pittoresque et son charme cosmopolite, la ville portuaire de Vancouver offre des expériences de calibre mondial à tous les participants. Nous espérons que vous joindrez à nous pour une autre excellente conférence, que ce soit installés confortablement chez vous ou au bureau ou à Vancouver.

Comme d’habitude, le Comité de planification scientifique travaille assidûment pour concevoir une rencontre attirante pour un vaste éventail de gens. Nous nous efforçons d’apporter des sujets de pointe et de retenir des conférenciers de haut niveau pour assurer une excellente discussion scientifique. Les sujets couvrent la COVID-19, la médecine des addictions, des sujets chauds concernant le traitement, les précautions à prendre pour l’aérosol par rapport aux gouttelettes. De plus, des sujets chauds en microbiologie diagnostique, maladies infectieuses chez les adultes et les enfants sont en préparation. Une nouveauté en 2022, nous offrirons des séances passionnantes de Masterclass sur des sujets particuliers. Le nombre de participants sera limité afin d’assurer une expérience d’apprentissage plus enrichissante et personnalisée.

L’AMMI Canada et la CACMID collaborent depuis 2005 pour organiser des rencontres annuelles de grande qualité. Le Comité central et le Comité de planification scientifique se réjouissent de vous recevoir à Vancouver et en ligne pour un événement éducatif exceptionnel au cours duquel vous aurez des occasions uniques de réseauter et de socialiser avec vos collègues.

NEW!

The conference pattern has changed for 2022. Trainees’ Day will kick off the programming on Tuesday, with the conference beginning on Wednesday and running through until Friday.
Objectives

The AMMI Canada – CACMID Annual Conference provides an interactive venue where experts in the fields of diagnostic microbiology, antimicrobial stewardship, infectious diseases, infection prevention and control, and public health meet. The conference attracts attendees from across Canada and internationally. As in previous years, the 2022 conference will provide updates on a variety of relevant topics to a diverse audience of clinicians, microbiologists, laboratory technologists, public health professionals, infection prevention and control practitioners, students, and residents. This year, the conference will be held in Vancouver with options for both in-person and virtual attendance.

In addition to the pre-meeting Trainees’ Day, the conference program will offer plenary sessions, state of the art clinical lectures, accredited co-developed educational activities, short oral presentations, poster presentations, case report presentations and unaccredited sponsored learning activities. The interactive clinical vignettes and the Incubator will be on hiatus in 2022. The 2022 meeting will be a chance for attendees to showcase their research, as well as get up to speed with the latest in the areas of microbiology, infection control, adult and paediatric infectious diseases and related subjects.

In addition to the scientific component, the meeting will provide opportunity for attendees to network, exchange ideas, and reconnect with colleagues whether you join us in person in Vancouver or virtually from the comfort of your own home or office!

Education Grants
(Applicable for in-person attendance only)

AMMI Canada

For Members-in-Training currently enrolled in Infectious Disease or Medical Microbiology training programs only

Eligibility
The applicant must currently be enrolled in an Infectious Disease or Medical Microbiology training program AND be an AMMI Canada Member-in-Training in good standing. To be eligible, the applicant must register for the AMMI Canada – CACMID Annual Conference 2022 and pay the full student conference registration fee. One-day registrants are not eligible.

AMMI Canada membership applications are only eligible if approved or in progress (application submitted) prior to the commencement of the conference on April 5, 2022. Each applicant is eligible for only one grant per annual conference.

Application
An education grant application form will be made available prior to the start of the conference.

Grants available are as follows:
- $250 for Members-in-Training from British Columbia
- $500 for Members-in-Training from Alberta and Saskatchewan
- $750 for Members-in-Training from Manitoba, Ontario, and Québec
- $1,000 for Members-in-Training from New Brunswick, PEI, Nova Scotia, Newfoundland and Labrador, Yukon, NWT, and Nunavut
- Up to $1,000 for Members-in-Training attending from the city of Vancouver, or the Lower Mainland are ineligible.

N.B:*
Members-in-Training attending from the city of Vancouver, or the Lower Mainland are ineligible.

CACMID

For Technical Staff and Clinical Microbiology Fellows

Eligibility
Applicants must be microbiology laboratory technologists or technicians, or clinical microbiology fellows registered in a Canadian training program, and all must be active members of CACMID. Each applicant is eligible for only one grant per annual conference.

Application
An education grant application form will be made available prior to the start of the conference.

Grants available are as follows:
- $250 for Technical staff attending from British Columbia
- $500 for Technical staff attending from Alberta and Saskatchewan
- $750 for Technical staff attending from Manitoba, Ontario, and Québec
- $1,000 for Technical staff attending from New Brunswick, PEI, Nova Scotia, Newfoundland and Labrador, Yukon, NWT, and Nunavut
- Up to $1,000 for Clinical Microbiology Fellows enrolled in a Canadian training program (itemized receipts must be submitted up to a maximum of $1,000 for reimbursement)

N.B:*
Virtual attendees are ineligible.

Pre-Conference Program

NEW!
The conference format has changed and will run Tuesday – Friday instead of our traditional format of Wednesday – Saturday

Tuesday, April 5
(Information available at time of publication – subject to change. All times indicated in Canadian Pacific time zone.)

8:00 – 12:30
AMMI Canada Council Meeting

9:00 – 11:00
Blood Operator One Health Session
The role of blood operators in supporting One Health and engaging infectious diseases experts, medical/clinical microbiologists, and public health laboratorians

This session will introduce microbiologists, infectious diseases experts and public health practitioners to the current activities that blood operators utilize to protect the blood supply from infectious diseases risks. Ways that blood operators engage with the broader infectious diseases and microbiology community will be explored. Didactic session discussion points and results of polling will be used to explore further topics for engagement following the meeting session.

 Speakers:
Steven J. Drews (EDMONTON, AB)
Sheila O’Brien (OTTAWA, ON)
Antoine Lewin (SHERBROOKE, QC)
Christian Renaud (MONTRÉAL, QC)

By the end of the session participants will be able to:

• Understand and describe the role that blood operators play to reduce the risk of transfusion-transmitted diseases.
• Discuss how blood operators can play a broader role in supporting One Health.
• Consider and prioritize topics for future collaboration between infectious diseases experts, microbiologists, public health laboratorians and blood operators.

12:30 – 17:00
Trainees’ Day
Putting the “I know” in Micro — Tips, tricks, and resources for learning microbiology & ID
Speaker:
Natalie Marshall (EDMONTON, AB)

By the end of this session, participants should be able to:

• Describe 4 complementary learning approaches to build expertise in any field, and how they can be applied to your own program.
• Reflect on key challenges for your own learning and select 2 to tackle after this session.
• Design a plan to implement 2 new approaches in your learning, to feel more prepared for your career and board exams.

Life Hacks: From Learner to Earner
Speaker:
Marthe Charles (VANCOUVER, BC)

By the end of this session, participants should be able to:

• Outline important information to include on a CV.
• Apply successful interview techniques and salary negotiations.
• Identify important things to look for/ask about in potential contracts.

Publication Bootcamp
Speaker:
Jesse Papenburg (MONTRÉAL, QC)

By the end of this session, participants should be able to:

• Increase the likelihood of getting work published by using a framework for the writing process.
• Avoid common pitfalls in manuscripts.
• Sell the novelty and value of your projects to the editors/reviewers/reader.
Wednesday, April 6

(Information available at time of publication — subject to change. All times indicated in Canadian Pacific time zone.)

7:15 – 8:45
Accredited Co-developed Learning Activity with Breakfast

7:45 – 8:45
Masterclass – Past, present, and future of DNA/RNA sequencing in the public health environment
(Space limited to 50 in-person participants)

Speaker: John Tyson (VANCOUVER, BC)

By the end of this session, participants should be able to:
- Review wet and dry lab whole genome sequencing basics, including a brief review of terminology.
- Describe whole genome sequencing pitfalls and opportunities experienced so far, and present mitigating strategies.
- Discuss needs and upstream considerations for the implementation of whole genome sequencing in front-line laboratories.

7:45 – 8:45
Masterclass – Infectious Disease and Medical Microbiology Teaching Skills
(Space limited to 50 in-person participants)

Speaker: Narveen Jandu (WATERLOO, ON)

By the end of this session, participants should be able to:
- Discuss paradigm shifts (and emerging trends) in health professionals’ education (i.e., as applicable to Clinical/Medical Microbiology and Infectious Diseases education).
- Incorporate best practices in teaching and learning for effective instructional design.
- Assess teaching skills, styles, and strengths.

9:00 – 11:30
Plenary – COVID-19: Into the Third Year Vaccines through the looking glass – addressing hesitancy and psychological consequences of the pandemic

Speaker: Steve Kisely (BRISBANE, AUS)

By the end of this session, participants should be able to:
- Describe the reasons why people choose not to vaccinate such as complacency, inconvenience in accessing vaccines and lack of confidence.
- Differentiate between hesitancy and conspiracy and identify strategies to mitigate hesitancy.
- Describe some of the associated psychological consequences of the pandemic.

Immunity
Speaker: Mario Ostrowski (TORONTO, ON)

By the end of this session, participants should be able to:
- Outline the immunology of natural COVID-19 infection.
- Update on vaccine immunology of COVID-19.
- Understand immunologic mechanisms of protection.

Post COVID-19 Syndrome
Speaker: Angela Cheung (TORONTO, ON)

By the end of this session, participants should be able to:
- Describe Long COVID-19 Syndrome.
- Describe multi-system inflammatory syndrome in children and adults.

11:30 – 13:30
Lunch and Exhibitor Lounge Open

11:30 – 13:30
AMMI Canada AGM and Sections Meeting
Thursday, April 7

(Information available at time of publication — subject to change. All times indicated in Canadian Pacific time zone.)

7:15 – 8:45
Accredited Co-developed Learning Activity with Breakfast

7:45 – 8:40
Masterclass — Post COVID-19: What to Do with All these Machines?
(Space limited to 50 in-person participants)

Speakers:
Todd Hatchette (HALIFAX, NS)
Jonathan Gubbay (TORONTO, ON)

By the end of this session, participants should be able to:
• Describe the process of finding new purposes for lab equipment and materials.
• Explore future uses/implementation of equipment originally made available for pandemic management.
• Discuss the fiduciary responsibility to use equipment and supplies provided for pandemic management.

7:45 – 8:45
Masterclass - Infectious Diseases in Immunocompromised Hosts Hot Topics
(Space limited to 50 in-person participants)

Speaker:
Donald Vinh (MONTREAL, QC)

By the end of this session, participants should be able to:
• Demonstrate an approach to understanding infection risk associated with biologics using an immunological pathway framework.

Speaker:
Sasan Hosseini (TORONTO, ON)

By the end of this session, participants should be able to:
• Assess challenges and updates related to infections following solid organ and hematopoietic stem cell transplantation.

9:00 – 11:15
Plenary – The Intersection of Addictions Medicine and Infectious Diseases

Public Health Lens: Canadian Epidemiology of Infectious Diseases Addiction Medicine
Speaker:
Pamela Leece (TORONTO, ON)

By the end of this session, participants should be able to:
• Outline current epidemiology of substance use disorder and associated infectious diseases in Canada.
• Describe unique public health impact of substance use disorder on communicable disease control.
• Understand current Canadian Public Health approaches to addressing these overlapping issues.

A New Subspecialty: Infectious Diseases-Addiction Medicine training and practice
Speaker:
Kinna Thakarar (PORTLAND, ME, USA)

By the end of this session, participants should be able to:
• Recognize the unique clinical features of Infectious Diseases-Addiction Medicine.
• Describe how Infectious Diseases-Addiction Medicine subspecialty training is developing to meet current needs.
• Highlight current efforts and future directions of Infectious Diseases-Addiction Medicine training and practice.

12:30 – 14:30
Lunch and Exhibitor Lounge Open

12:30 – 14:30
CACMID AGM

14:30 – 16:00
State of the Art Clinical Lecture – Duration of Therapy: How Low Can You Go?

Speakers:
Nicole Le Saux (KINGSTON, ON)
Jennifer Grant (VANCOUVER, BC)

By the end of this session, participants should be able to:
• Discuss optimizing efficacy and safety in choosing duration of therapy.
• Review the known knowns and known unknowns.
• Describe what is coming down the clinical trials pipeline.
• Identify communication strategies within and outside the AMMI Canada and CACMID communities.

16:15 – 17:30
Oral Presentations – Session A and Session B
Friday, April 8
(Information available at time of publication – subject to change. All times indicated in Canadian Pacific time zone.)

7:00 – 8:30
Accredited Co-developed Learning Activity with Breakfast

8:45 – 10:00
Speaker: Brittany Bingham (VANCOUVER, BC)
By the end of this session, participants should be able to:
• Summarize results from recent research “Informing the COVID-19 Response for Vancouver’s Urban Indigenous Population using Community-drive Methods and Big Data Analytics”.
• Discuss lessons learned related to the experience of COVID-19 in indigenous communities highlighting what has gone well and what could be going better.
• Describe opportunities to reduce inequities that have become more widely evident given COVID-19.
Speaker: Patrick Auger (OTTAWA, ON)
By the end of this session, participants should be able to:
• Recognize when an Incident Management System framework should be utilized for a large scale response.
• Recognize the importance of Incident action planning to keep an operational deployment consistent.
• Discuss some of the challenges in forward deploying vaccine into remote environments.
• Reflect on the importance of community engagement in the completion of mission objectives strategies and tactics.

10:15 – 11:30
Oral Presentations – Session C and Session D

11:45 – 12:45
Case Report Symposium

12:45 – 14:45
Delegate Lunch

15:00 – 17:00
Plenary – What’s Hot in Antimicrobial Stewardship, Medical Microbiology, Infectious Diseases, and Infection Control?

What’s Hot in Antimicrobial Stewardship
Speaker: Karin (Kas) Thursky (MELBOURNE, AUS)
By the end of this session, participants should be able to:
• Describe recent new findings that impact the practice of stewardship.

What’s Hot After Going Viral: New Trends in Medical Microbiology
Speaker: Patricia Simner (BALTIMORE, MD, USA)
By the end of this session, participants should be able to:
• Describe recent new findings that impact the practice of medical microbiology.

What’s Hot in Infectious Diseases
Speaker: Lynora Saxinger (EDMONTON, AB)
By the end of this session, participants should be able to:
• Describe recent new findings that impact the practice of Infectious Diseases.

What’s Hot in Infection Control
Speaker: Yves Longtin (MONTREAL, QC)
By the end of this session, participants should be able to:
• Describe recent new findings that impact the practice of infection control.

17:00 – 17:15

**Payment Policy**
Conference registrations are not considered confirmed until full payment is received. All conference registration fees must be paid prior to commencement of the 2022 AMMI Canada – CACMID Annual Conference (April 5, 2022). This includes payment for all optional events.

**Cancellation Policy**
Cancellation request must be submitted in writing. Those received on or before March 8, 2022 – 100% refund; those received on or before March 22, 2022 – 50% refund; those received after March 22, 2022, cannot be refunded. An administration fee of $50 will be deducted. Registrations may be transferred at any time without penalty.

* Payment must be received before the early bird fee cut-off date of March 8, 2022.

** A letter of attestation from the teaching institution indicating the registrant is enrolled in a full-time program must accompany the registration.

**Politique de paiement**
Les inscriptions à la conférence ne sont considérées confirmées qu’à la réception du paiement intégral. Tous les droits d’inscription à la conférence annuelle 2022 d’AMMI Canada – CACMID doivent être payés avant le début de la conférence (8 mars 2022), y compris le paiement pour les événements facultatifs.

**Politique d’annulation**
Les demandes d’annulation doivent être soumises par écrit. Celles reçues avant le 8 mars 2022 ou à cette date seront remboursées à 100 %; celles reçues avant le 22 mars 2022 ou à cette date seront remboursées à 50 %; et celles reçues après le 22 mars 2022 ne seront pas remboursées. Un coût d’administration de 50 $ sera déduit. Les inscriptions peuvent être transférées en tout temps, sans pénalité.

** L’étudiant(e) doit fournir une lettre de l’établissement d’enseignement attestant qu’il (elle) est inscrit(e) à un programme d’études à temps plein.

COVID-19 Health and Safety
The priority of both AMMI Canada and CACMID is to create a safe environment at the annual conference. As the situation surrounding the COVID-19 pandemic is constantly evolving, we will be working in conjunction with the Sheraton Vancouver Wall Centre to monitor the health and safety protocol requirements. We will meet or exceed the standards set by the Sheraton Vancouver Wall Centre, the Health Authority for British Columbia, and the Public Health Agency of Canada (PHAC).

The 2022 conference pattern is changing for 2022. Trainees' Day will kick off the programming on Tuesday, April 5, with the conference beginning on Wednesday, April 6 and running through Friday, April 8.

Rates are available 3 days prior and 3 days after the annual conference, subject to availability at time of reservation. To make an online reservation please visit the annual conference sections of www.ammi.ca or www.cacmid.ca and follow the hotel reservation instructions. Be sure to use the conference link to ensure you receive the AMMI Canada – CACMID Annual Conference rates. If you are making a telephone reservation, please call and identify yourself as an AMMI Canada – CACMID Annual Conference attendee.

Sheraton Vancouver Wall Centre
1088 Burrard Street
Vancouver, BC V6Z 2R9

Offer available only while rooms are available, so don’t miss out – BOOK EARLY!

Simply fill in your Sheraton Vancouver Wall Centre reservation number on the conference registration form and save $100.

By reserving a room at the Sheraton Vancouver Wall Centre, AMMI Canada and CACMID are able to keep the conference costs low; savings that we pass on to you as a member.

Offer applies to full conference registration only! One rebate per hotel room!

Travel Discounts

The AMMI Canada – CACMID Annual Conference Secretariat has secured special discount options with these official transportation suppliers:

AIR CANADA
WESTJET

To take advantage of travel discount offers, you will need the booking instructions provided in your conference registration confirmation email. If you are registered, but you are unable to locate this communication, please contact meetings@ammi.ca.

Vancouver

Located in the heart of Vancouver, you will never feel more at home than at the Sheraton Vancouver Wall Centre. Step outside the doors and into the celebrated sights of the city. Stroll leisurely through the boutiques of Robson Street and Yaletown, take a Sea Wall Walking Tour with friends, and create memories at Stanley Park and the Vancouver Art Gallery, all just blocks away. Slow down and take in the views of the skyline and the Pacific Ocean from your room. Jump into the heated swimming pool, ease into the whirlpool to get refreshed or get re-energized at the health club. A warm welcome awaits you at the Sheraton Vancouver Wall Centre.

Vancouver

April 5-8, 2022 | 5-8 avril 2022
Sheraton Vancouver Wall Centre
8th Annual CFID Bug Run
Virtually March 5th to April 15th

While all CFID members will not have the opportunity to come together in person at AMMI Canada – CACMID Annual Conference 2022, the annual CFID Bug Run will take place virtually again this year.

CFID encourages all members to undertake their own 5K run/walk from March 5th to April 15th to raise awareness and support the work of CFID.

For more information, please see: www.researchid.com/fund-raising/2022-bug-run

COVID-19 Health and Safety

The priority of both AMMI Canada and CACMID is to create a safe environment at the annual conference. As the situation surrounding the COVID-19 pandemic is constantly evolving, we will be working in conjunction with the Sheraton Vancouver Wall Centre to monitor the health and safety protocol requirements. We will meet or exceed the standards set by the Sheraton Vancouver Wall Centre, the Health Authority for British Columbia, and the Public Health Agency of Canada (PHAC).
