

INFECTIOUS DISEASES SPECIALIST

Joseph Brant Hospital (JBH) is seeking an Infectious Diseases (ID) Specialist to join the Department of Medicine as an associate staff member.

JBH is a busy full-service community teaching hospital, midway between Toronto and Niagara, servicing the City of Burlington, the Region of Halton and neighboring communities. JBH is honoured to be recognized as one of Hamilton-Niagara's Top Employers for eight consecutive years including 2023. JBH inspires and empowers a culture of caring, through its firm commitment to the health, safety, and wellbeing of its people.

Our hospital includes an Emergency Department that sees over 50,000 patients a year, 172 acute inpatient beds, a 24-bed ICU, 9 Operating Rooms, a Cancer Centre, a robust Diagnostic Imaging Department, a pediatric inpatient ward, and an Ambulatory Care Department. JBH is also a partner member of the Burlington Ontario Health Team.

Our model of care streamlines admissions through Internal Medicine, Hospitalist, Surgical, and Mental Health Services. The Department of Medicine at JBH boasts generalists and a broad range of subspecialists, including Cardiology, Gastroenterology, Haematology, Neurology, Respiriology, and Medical Oncology. JBH prides itself on the collegiality of staff and its ease of collaboration within a multidisciplinary care environment. JBH has fostered relationships with innovation labs and programs across Canada that continue to identify and implement progressive ways of providing healthcare.

As a member of the ID division, the successful candidate will have both inpatient and outpatient clinical duties. Our ID division provides care to a wide variety of patients and is supported by a dedicated ID/Antimicrobial Stewardship Pharmacist, the Infection Prevention and Control team, and the Hamilton Regional Laboratory Medicine Program.

Our innovative and rapidly expanding hospital-based outpatient practice provides care through an ID Clinic for complex infectious diseases. The clinic provides consultative services for infections of the blood, heart, bone, post-operative infections, tropical diseases and infections in children.

In addition to clinical excellence and strong interpersonal skills, the successful applicant will be expected to contribute as a clinician-teacher at both the undergraduate and postgraduate level, as JBH is a clinical education campus of McMaster University.

Candidates must be a Fellow of the Royal College of Physicians and Surgeons of Canada with an FRCPC Certificate of Competency in Infectious Diseases. Registration with (or eligibility for) the College of Physicians and Surgeons of Ontario is required. Established physicians and graduating residents are both encouraged to apply.

Applications including a CV and letter of interest will be accepted through the Medical Affairs Office at medicalaffairs@josephbranthospital.ca. Please ensure to include your available start date in your application. A review of applicants will commence on March 8, 2023, and will continue until the position is filled.
