

STUDENT IN-PERSON POSTER PRESENTATION INSTRUCTIONS AND SCHEDULE

(Updated as of March 8, 2023)

ALL In-Person posters MUST be set up no later than 12:15 pm Wednesday, March 29, 2023
ALL In-Person posters MUST be available for viewing for all three days of the conference, March 29, 30 and 31, 2023)
POSTER PRESENTERS SHOULD TRY AND BY AT THEIR POSTERS AT LEAST ONCE DURING PRESENTATION TIMES TO ANSWERS QUESTIONS!

POSTER Viewing: Wednesday, March 29, Thursday March 30, and Friday March 31
Posters: SP001 – SP048
Location: Metropolitan Ballroom, Westin Harbour Castle

In-Person Poster Presentation Times:

- **Wednesday, March 29**
 - 12:30 - 14:30 Lunch and Poster Presentations
 - 18:00 – 19:30 Welcome Reception
- **Thursday, March 30**
 - 12:30 – 14:30 Lunch and Poster Presentations
- **Friday, March 31**
 - 11:30 – 13:30 Lunch and Poster Presentations

In-Person Poster Set Up

- Wednesday, March 29 between 07:00 - 12:15
(ALL posters MUST be set up no later than 12:15, Wednesday, March 29)

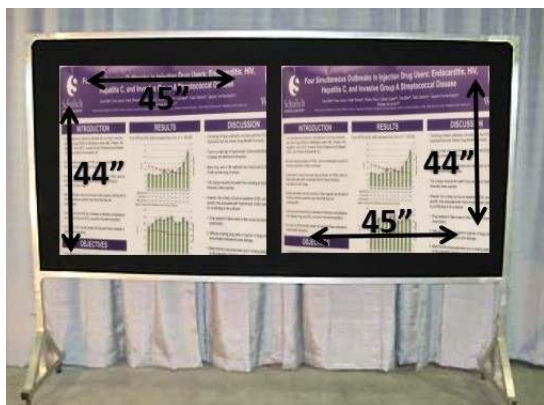

In-Person Poster Removal:

- Friday, March 31, 13:30
(ALL posters must be removed immediately following lunch)

In-Person Poster Instructions

- The maximum allowable size for each presenter is 44" high/tall x 45" wide (Each poster surface will be split between two presenters)
- Velcro (make side) and pin friendly
- Should you require assistance onsite, please visit the team at the registration desk (Coat Check Room, Conference Centre, Street Level)

Oxford Platform Poster/Case Report Upload Instructions (only PDFs accepted)

Upload deadline: March 17, 2023

1. When you log in to your Oxford Abstracts Account you will see your poster is marked incomplete. <https://auth.oxfordabstracts.com/?redirect=/stages/4654/submitter>
2. Skip to page 2 and upload your final poster in a PDF format.
3. Once finished uploading PDF, skip to page 6.
4. Select "SUBMIT" at the bottom right-hand side.
5. Once you have selected submit you will be taken back to the amendment page.
6. You have now completed uploading a PDF of your poster. You can close your browser. You will receive an email confirmation.

IN-PERSON STUDENT POSTER PRESENTATION SCHEDULE

(Updated as of March 6, 2023)

Session Code	Abstract ID	Abstract Title	Presenter
SP001	41	Effects of oral iron supplementation on gut bacterial composition in Cambodian women of reproductive age: A randomized controlled trial	Emma Finlayson-Trick
SP002	70	SARS-CoV-2 variants of concern show differential replicative fitness in primary human respiratory tract cells and transmission in Syrian golden hamsters	Andra Banete
SP003	197	Immunogenicity of COVID-19 vaccines: Initial findings from a prospective longitudinal cohort study	Alexa Keeshan
SP004	66	Characterizing the acute SARS-CoV-2 antibody response: serological profiling of participants enrolled in the GENCOV study	Gregory Morgan
SP005	34	Evaluation of the Abbott ID NOW™ COVID-19 assay with nasopharyngeal swab viral transport media and saline gargle samples from symptomatic adults and children	Iryna Kayda
SP006	131	Using a novel genomic algorithm to reconstruct networks of SARS-CoV-2 transmission in an acute care facility outbreak	Kevin Kuchinski
SP007	118	Temporal dynamics and genomic surveillance of SARS-CoV-2 variants in COVID-19 patients from Toronto, Canada	Kuganya Nirmalarajah
SP008	49	Preventative behaviours and COVID-19 infection in a Canadian cohort of people living with HIV	Keely Hammond
SP009	203	Surveillance of SARS-CoV-2 amongst the homeless population	Julia Maciejewski
SP010	WITHDRAWN		
SP011	58	Characterization of provincial and global invasive pneumococcal serogroup 20 isolates	Ashley Williams

Session Code	Abstract ID	Abstract Title	Presenter
SP012	80	The impact of COVID-19 pandemic on the rate and severity of bacteremias presenting to the emergency department	Madison Burella
SP013	188	The epidemiology of cardiac implantable electronic device infections in a Canadian province: A cohort study of validated administrative data	Teagan King
SP014	18	Naturalized Escherichia coli as a potential reservoir of antibiotic resistance and virulence genes in wastewater treatment and meat processing plants	Daniel Yu
SP015	113	Changing Trends of Antimicrobial Resistance among Shigella species in British Columbia; a Call for Change in Empiric Management	Reem Abanamy
SP016	WITHDRAWN		
SP017	201	Population-level provider compliance with provincial treatment guidelines for the management of gonorrhoea in infants, children and adolescents in Alberta, Canada, 2000-2019	Carolina Diaz Pallares
SP018	190	Cases of PCR-Positive Blood for Anaplasma phagocytophilum in Nova Scotia: A Review from May – September 2022	Elizabeth Simms
SP019	149	Global burden of non-tuberculous mycobacteria in the cystic fibrosis population: a systematic review and meta-analysis	Mosaab Alam
SP020	173	Wastewater surveillance of respiratory syncytial virus (RSV) as environmental predictor of RSV epidemics	Elisabeth Mercier
SP021	137	Wastewater-based surveillance of human influenza and respiratory syncytial virus	Sudha Bhavanam
SP022	102	Hospitalizations for acute respiratory diseases among children before and during the COVID-19 pandemic	Christine Lukac
SP023	WITHDRAWN		
SP024	72	Clinic barriers and facilitators to the implementation of a decolonization strategy for <i>Staphylococcus aureus</i> in hip and knee arthroplasty: A qualitative study	Lindsay Whelan

AMMI Canada – CAGMID
ANNUAL CONFERENCE
CONFERENCE ANNUELLE

Session Code	Abstract ID	Abstract Title	Presenter
SP025	59	Automating surveillance of <i>Staphylococcus aureus</i> bacteremia in two urban hospitals	Minh Nguyen
SP026	46	Investigating the transmission of <i>Clostridioides difficile</i> from asymptomatic patients	Sheridan Baker
SP027	144	Comparison between electronic surveillance and infection control professionals reporting of healthcare associated <i>Clostridioides difficile</i> infections	Jean Stanciu
SP028	55	Harmonization of quality indicators used in university-affiliated clinical microbiology laboratories	Jennifer Tat
SP029	180	Time to break the dogma?	Ruchika Bagga
SP030	210	Turn-around time of positive blood culture in community hospitals in central zone Halifax – a quality assurance project	Yahya Shabi
SP031	48	Time-to-positivity of blood cultures collected from hospitalized children	Eugene Yeung
SP032	156	Checkerboard Assay: Synergistic Anti-biofilm Properties of Cannabinoids and Commonly used Antibiotics Against Pre-Formed Biofilms of Clinical Multidrug-Resistant Strains of Bacteria	Joanna Urban
SP033	23	Evaluating the accuracy of the MBT Lipid Xtract Kit for assessing colistin resistance in comparison to broth microdilution	Calvin Lo
SP034	221	Hybrid whole-genome assembly allows for improved plasmid reconstruction and cluster identification of carbapenemase-producing-organisms	Darcy Sutherland
SP035	WITHDRAWN		
SP036	148	Development of an assay on BD Max open system for detection of <i>Bordetella</i> species in clinical specimens	Hanh Tran
SP037	68	Human enhancing technology in the microbiology laboratory: Analytical performance and validation of MetaSystems for detection of respiratory mycobacterial infections and implementation considerations	Conor Broderick

AMMI Canada – CAGMID
ANNUAL CONFERENCE
CONFÉRENCE ANNUELLE

Session Code	Abstract ID	Abstract Title	Presenter
SP038	150	Performance of an in-house PCR assay for the detection of Mycobacterium tuberculosis complex and Mycobacterium avium complex in various specimen types	D Brody Duncan
SP039	36	Development and validation of RT-qPCR panel for the detection and quantification of polioviruses in wastewater	Linnet Immaraj
SP040	78	Verification and clinical evaluation of the cobas CMV assay: Commutability with the CAP/CTM CMV assay	Farzan Pavri
SP041	202	Improved Test Sensitivity of Direct Gram stain and Calcofluor in the Diagnosis of Blastomycosis after Repeated Microscopic Examination	Mohammed Sarhan
SP042	136	Methodological and reporting quality of non-inferiority randomised controlled trials comparing antiretroviral therapies: A systematic review	Adam Komorowski
SP043	15	Pre-analytical Optimization of Dermacentor Tick Species Processing for Molecular Identification	Angel Yao
SP044	40	The period prevalence of a beta-lactam allergy label in patients prescribed carbapenems: A retrospective cohort study	Shealynn Carpenter
SP045	14	Adherence to recommendations from antimicrobial stewardship audit and feedback rounds in academic intensive care units	Keerthika Selvakumar
SP046	160	Changes in physician outpatient antibiotic prescribing from 2019 to 2021 during the COVID-19 pandemic	Pranav Tandon
SP047	161	Cefazolin Serum Concentrations and Protein Binding in Hemodialysis Patients	Courtney Lawrence
SP048	247	Verification of antimicrobial susceptibility testing methods for new agents against challenging multi-drug resistant Gram-negative organisms	Yerin Lee
