Clinician Scientist Faculty Position in Pediatric Infectious Diseases

Dalhousie University is seeking applications to fill a full-time faculty position in the Department of Pediatrics, Faculty of Medicine, and the Canadian Center for Vaccinology (CCfV) at the rank of Assistant or Associate Professor.

The successful candidate will be a Pediatric Infectious Diseases specialist who will complement a strong academic group in the Division of Infectious Diseases, Department of Pediatrics, at Dalhousie University and the IWK Health Centre. The candidate will serve as a consultant in pediatric infectious diseases, teach within the medical school and postgraduate training programs, and will be expected to develop a research program in a vaccine-related field.

[Dalhousie University](#) is located in [Halifax](#), a cosmopolitan port city and the capital of [Nova Scotia](#). Halifax is alive with culture and heritage and embraced by the Atlantic Ocean. It is a leading academic and research institution in Atlantic Canada. The appointed candidate will be based at [CCfV's](#) facilities in the [IWK Health Centre](#), the tertiary care pediatric and women's hospital for the Maritime provinces. CCfV brings together an interdisciplinary team of researchers, clinician scientists, and trainees engaged in vaccine discovery, evaluation, and health policy and translation. The Center provides a supportive environment in which to develop a dynamic research program. CCfV is a core member of the Dalhousie Medical School based Inflammation, Immunity and Infectious Diseases (I3V) research initiative.

Academic qualifications are an MD degree or equivalent and specialty training in pediatrics and infectious diseases. Eligibility for medical licensure in Nova Scotia is essential. The successful candidate must have demonstrated their potential to conduct independent research and collaborate with other investigators. Up to 70% of the position's time will be designated for research with teaching, other academic activity, and clinical service in the remaining time. Academic appointment as an Assistant or Associate Professor will be commensurate with experience and qualifications. The successful candidate will become a pediatric infectious disease consultant for the clinical service.

Interested applicants are invited to submit a curriculum vitae and a two-page description of their research interests and accomplishments. Three letters of reference (two of which are academic) must be sent directly by the referees to the Search Committee Chair:

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is an Employment Equity/Affirmative Action employer. The University encourages applications from qualified Aboriginal people, persons with a disability, racially visible persons, and women.

The closing date for applications is June 30, 2023.
