AMMI Canada Member-in-Training Post-Graduate Incremental Dues Increase Policy

AMMI Canada recognizes the significant fee increase when Members-in-Training graduate from their programs and move to full Active Member. AMMI Canada has created an incremental post-graduate dues increase schedule:

- **1st year post graduation, dues are \$150**
- **2nd year post graduation, dues are \$250**
- **3rd year post graduation, member moves to active member and pay full dues for that fiscal year**

Members-in-Training are asked for their expected graduation date when they apply to membership. On this date, the members' profile will be updated by the AMMI Canada Secretariat. When the yearly dues are generated for all of membership, the Member-in-Training will then be sent an updated invoice reflecting their post-graduate year and current dues as listed above.

The Member-in-Training Post-Graduate Incremental Dues Increase Policy will be effective for the release of the 2024 AMMI Canada dues. AMMI Canada Secretariat will be reviewing all current Members-in-Training files and updating their fees according to the policy.
